

[www.mathernaa.org](http://www.mathernaa.org) Excerpt (9), A. Jon Magoon University of Delaware Interview Transcript, 1979, Frances Eleanor Peacock papers, 1927-1937, Manuscript, Archives, and Rare Book Library, Emory University.

*\*(M-) That's a surprising kind of continuation of the (tradition) of a close personal kind of interest!*

*P- You see, we,- students, teachers, and parents went through some of the changes together, trying to test the laws, as I mentioned earlier. In seeking to erase the color-line which caused so many ine(qualities,) we did many little things against the obv . . . .*

\*M represents Magoon; P represents Peacock
